

```
Rcpp::sugar::Comparator  
< RTYPE, Operator, false,  
LHS_T, false, RHS_T >::size
```

The diagram illustrates a function call. A grey rectangular box on the left contains the code `Rcpp::sugar::Comparator< RTYPE, Operator, false, LHS_T, false, RHS_T >::size`. A straight blue arrow points from the right side of this box to a white rectangular box on the right. The white box contains the code `Rcpp::VectorBase::size`. A curved blue arrow originates from the top of the white box and points back to the top of the white box, forming a self-loop.

```
Rcpp::VectorBase::size
```
