

```
Rcpp::sugar::Or_LogicalExpression  
_LogicalExpression< false,  
LHS_T, RHS_NA, RHS_T >::size
```

The diagram illustrates a function call. A grey rectangular box on the left contains the code `Rcpp::sugar::Or_LogicalExpression _LogicalExpression< false, LHS_T, RHS_NA, RHS_T >::size`. A straight blue arrow points from the right side of this box to a white rectangular box on the right. This white box contains the code `Rcpp::VectorBase::size`. A curved blue arrow originates from the top of the white box and points back to the top of the white box, forming a self-loop.

```
Rcpp::VectorBase::size
```
