

inst/include/Rcpp/utis
/tinyformat/tinyformat.h

```
graph TD; A["inst/include/Rcpp/utis  
/tinyformat/tinyformat.h"] --> B[algorithm]; A --> C[cassert]; A --> D[iostream]; A --> E[sstream];
```

The diagram illustrates a header file's dependencies. A central box at the top contains the file path `inst/include/Rcpp/utis/tinyformat/tinyformat.h`. Four blue arrows point downwards from this box to four separate boxes below it, each containing a file name: `algorithm`, `cassert`, `iostream`, and `sstream`.
