

Rcpp::as< char >

```
graph LR; A[Rcpp::as< char >] --> B[Rcpp::internal::check_single_string]
```

A diagram illustrating a function call. On the left, a gray rectangular box contains the text `Rcpp::as< char >`. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text `Rcpp::internal::check_single_string`.

Rcpp::internal::check
_single_string
