

```
serialization::serializer  
< std::vector< T > >::serialize
```

```
graph LR; A["serialization::serializer< std::vector< T > >::serialize"] --> B["BinaryStream::write"]
```

A diagram showing a call from a serialization function to a write method. On the left, a gray rectangular box contains the text "serialization::serializer" followed by "< std::vector< T > >::serialize" on the next line. A blue arrow points from the right side of this box to a white rectangular box on the right. The white box contains the text "BinaryStream::write".

```
BinaryStream::write
```
